DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 18 October 2005 has been entered.

Allowable Subject Matter

2. Claims 1, 2, 3, 10, and 12 allowed.
3. The following is an examiner's statement of reasons for allowance. The closest art retrieved within the search is Suzuki (US 5,796,736) and Sanada et al. (EP 0 881 560 A2).
4. Sanada taught the use of a control table used to record the device name and port identification. The main difference between the applicant's claimed 'control table' and Sanada's control table is that Sanada's table does not include the field to indicate necessary security information regarding the port being access enabled/disabled. To this end it is determined that the prior art references of Sanada and Suzuki do not teach (alone or in combination) "replacement of the connection port is detected by the storage controller on the basis of information notified from the information exchanger, and in the control table, ... identification information of the newly added input/output port and security information in which access disabled is set are registered in the control table"

Art Unit: 2142

as claimed in independent claim 1. Therefore, the independent claim 1 contains allowable subject matter and is allowable over the prior art of record.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
